DETAILED ACTION

Specification

The abstract of the disclosure is objected to because of the use of the legal term "invention". The abstract should be a summary of the technical disclosure and not include legal terms. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "the tooth elements" (claim 1, lines 7-8) lacks antecedent basis as it is unclear if --the fastening elements-- are being referred to or some other structure. As it is not particularly pointed out which tooth elements are being referred to claims are of unclear scope. It is assumed for the basis of this action that the limitation refers to the fastening elements. The remaining claims are indefinite because depend from an indefinite base claim.

Allowable Subject Matter

Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
